PRODUCT DESCRIPTION

Designer: BEGA

BEGA 22423 LED Outdoor Wall Light

The BEGA 22423 Wall Light is an architectural lighting solution with functionality at its core. This wall light utilises a safety guard for use on walls, pillars, or similar architectural elements, ensuring vast versatility. The frame is crafted from cast aluminium and is robust, with an IP65 protection rating. It ensures the inner light source is protected from the elements and can be used in exterior settings. The thick crystal glass of the BEGA 22423 LED Outdoor Wall Light adds character to the design, as well as providing direct light diffusion.

This outdoor lighting solution can be used in a variety of spaces, both residential and commercial, and offers functional illumination to building exteriors, entryways, driveways, paths and al fresco dining areas. The structure of the BEGA 22423 is available in two sleek metallic finishes: graphite or silver, both of which add an elegant aesthetic to your environment.
