PRODUCT DESCRIPTION

Designer: BEGA

BEGA 84607 LED Outdoor Bollard

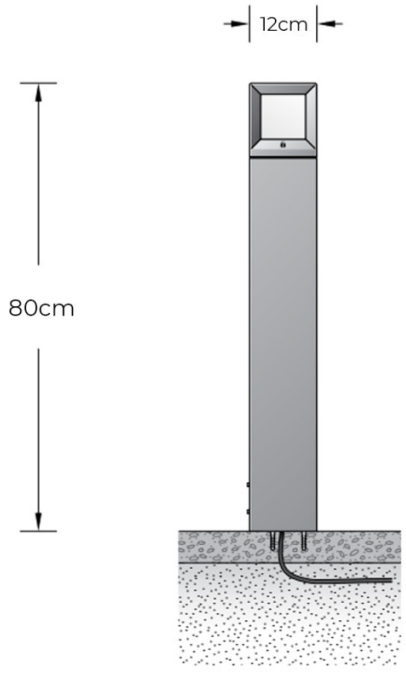

The BEGA 84607 LED Outdoor Bollard is a taller version of the **84606** and offers the same functional and glare-free illumination. Boasting a geometric silhouette, the cast aluminium structure houses thick-walled glass that encompasses and diffuses the inner light source. A durable and functional luminaire, the 84607 Bollard is an excellent addition to gardens and pathways, whether installed independently or in clusters and linear rows.

Not only is the BEGA 84607 Outdoor Bollard functional, it is also cost-effective due to the LED technology and durable thanks to an IP65 protection rating. This exterior lighting solution comes in either a dark graphite finish or a sleek silver, depending on your preferred style, both of which can adapt beautifully to a range of settings and architecture.

Please Note: The BEGA 84607 Bollard is supplied with a screw on base as standard, but an anchorage unit can also be supplied at an additional cost. Please Contact Us for information and pricing.
