PRODUCT DESCRIPTION

Designer: Gabriel Tan

Louis Poulsen Rume LED Portable Lamp

Available to pre-order for official release in November 2025. Designed by Gabriel Tan for Louis Poulsen, the Rume LED Portable pairs a sculptural, asymmetrical profile with warm, comfortable light. The gently tilted shade delivers a soft, diagonal wash for close-up tasks and bedtime reading, while the diffuser creates a 360-degree ambient glow that is calm and glare-free. With IP44 protection, Rume is suited to indoor spaces and sheltered outdoor settings, from bedrooms and living rooms to terraces and patio tables.

Rume Combining the Danish word "rum" (meaning space or room) with the English word "me", features an integrated LED at 2700K to provide a warm and ambient light, controlled by a three-step dimmer on the base, allowing quick changes between 10 percent, 33 percent and 100 percent output. The rechargeable and replaceable battery supports flexible daily use, and charging is via USB-C. Finished in a high-gloss polycarbonate shell that feels good in the hand, the Rume Portable Lamp is available in Cloud White, Earth Grey and Night Blue, making it easy to place across contemporary and classic interiors.
