PRODUCT DESCRIPTION

Designer: Poul Henningsen

Louis Poulsen PH 80 Table Lamp

Available to pre-order for official release in November 2025.
The PH 80 Table Lamp from Louis Poulsen carries Poul Henningsen's three shade principle into a compact, versatile format for desks, bedside tables and sideboards. Three opal acrylic shades diffuse light evenly while guiding the majority of illumination downward to the surface, creating a gentle, glare free pool of light with soft, comfortable reflections in the room. The classic configuration pairs opal shades with a red top reflector for a warmer glow, while an all white variant offers a crisp, minimalist option with the same balanced distribution.

Engineered with die cast aluminium components and a textile cord with an inline switch, PH 80 Table takes a standard E14 LED lamp for easy replacement and control over brightness and colour temperature. Use a warm white lamp for evening ambience or a cooler lamp for task focused settings. Available in Opal White, High Lustre Chrome Plated and Opal White, White, the PH 80 Table Lamp brings Henningsen's human centric approach to contemporary interiors.

PRODUCT SPECIFICATION

Light Source: 1 x Max 6W E14 LED (Excluded)
