PRODUCT DESCRIPTION

Designer: Poul Henningsen

Louis Poulsen PH 80 LED Portable Lamp

The PH 80 LED Portable distils Poul Henningsen's three shade system into a cable-free lamp for tabletops, shelves and terraces. Opal acrylic shades diffuse light evenly and direct a comfortable, downward wash for reading, dining and conversation, while the multi-part top assembly controls glare and maintains the familiar PH character. The compact format makes it easy to move the lamp wherever you want, for calm, balanced light.

Designed for everyday flexibility, the portable model integrates an LED light source and a rechargeable battery pack, operated by a base-mounted switch with charge status indicator and a stable silicone foot. Dimmable with 4 settings, 5%, 20%, 45% and 100%. Available in Opal White, High Lustre Chrome Plated and Opal White, White, PH 80 LED Portable pairs refined materials with useful portability for indoors and sheltered outdoor spaces. IP rating and dimmer steps to be confirmed for UK spec, please verify before publishing.
