PRODUCT DESCRIPTION

Designer: Needs Studio

Lodes Tidal LED Suspension

The Tidal suspension by Lodes, designed with Needs Studio, refines the familiar ring into a softly asymmetric form that appears to shift as you move, creating a gentle sense of motion in the room. A compact double-shell body conceals the optics and driver, balancing direct and indirect light in a precise 50 to 50 split for clarity on the surface below and a calm ceiling glow above. Dual switching lets you control each circuit independently, so you can dial ambience or task emphasis to suit the moment, from intimate dinners to bright working light.

Scaled at 60cm in diameter and surprisingly slim in profile, Tidal floats on three fine cables from a discreet circular canopy. Adjustable by hand up to a 150cm drop, ideal for hospitality and dining where table layouts change. Finished in matte white, black, extra matte champagne or terra, Tidal brings high output, comfort and a quietly sculptural presence to kitchens, dining areas, reception desks and collaborative zones.

Please Note: the Lodes Tidal can be supplied with an output of 2700K upon request as well as Dali dimming compatibility. This product comes with a white canopy as default, a black canopy is available on request. [Contact us](#) for more information and pricing.

PRODUCT SPECIFICATION

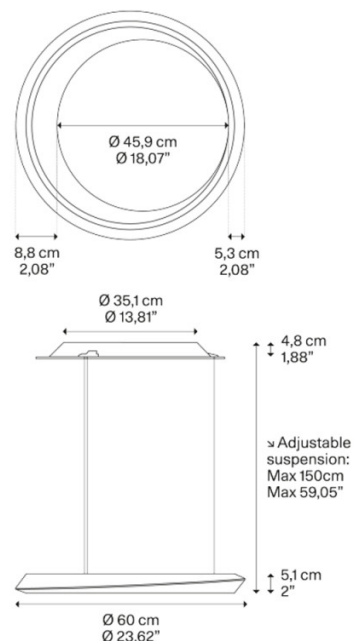

Light Source: 33W, 3000K, 6630 Lumens

IP Code: 20

Dimming: Dimmable via Triac dimming.

Dimensions: Shade: Ø60cm
Shade Height: 5.1cm

Cable Length (Adjustable): 150cm (Max)
