PRODUCT DESCRIPTION

Designer: Marco Piva

Lodes Shift LED Wall Light

Lodes Shift LED Wall Light by Marco Piva refines the wall light into a slim architectural element with controlled, comfortable output. A dark internal structure intensifies the beam, while the LED source is positioned to avoid unwanted shadows on the wall and ceiling. Two interchangeable screens, transparent or sandblasted, let you move from a crisp projection to a softer wall wash. The minimalist body sits close to the surface so rooms stay calm and uncluttered, and the neutral finishes, matte white, matte black, extra matte champagne, and natural brown, pair easily across schemes.

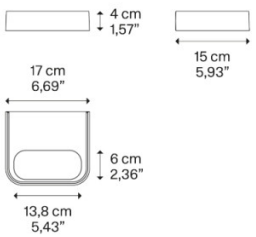

Available in two sizes to suit scale and output. Shift Small is a compact choice for bedrooms, living spaces, and corridors, ideal used in sequence. The Shift in Large scales the same disciplined design for higher output applications such as hallways, stairwells, and larger living areas. Install singly as a primary light source or arrange several for continuous, balanced illumination, maintaining a cohesive ambience.

Please Note: the Lodes Tidal can be supplied with an output of 2700K upon request as well as Dali dimming compatibility. Contact us for more information and pricing.

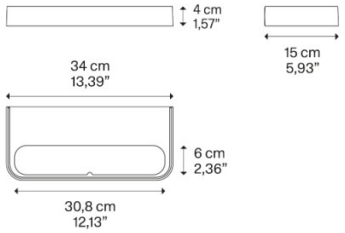

PRODUCT SPECIFICATION

Light Source:	**Small:** 16W, 3000K, 2580 Lumens **Large:** 32.5W, 3000K, 5255 Lumens
