PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Whirl Fat Cone LED Table Lamp

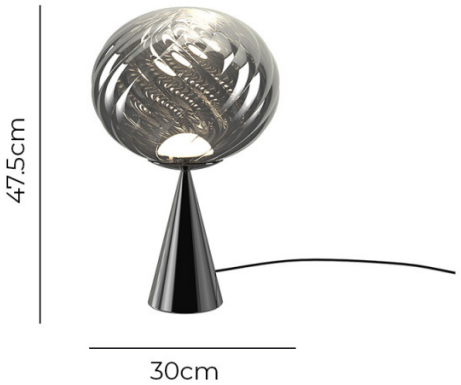

The Whirl Fat Cone Table Lamp takes its cues from the bold, distorted patterns of the Optical Art movement. Its polycarbonate shade is made using injection blow moulding, giving it a lightweight but durable form, while the spiral design appears to balance above the conical base. A vacuum metallisation process applies a thin layer of metal to the inside of the shade, creating Whirl's reflective, semi-metallised finish. The lamp is available in Gold/Black, Silver/Black and the new Copper/Black finish, alongside the Silver/Silver configuration.

When switched off, the Whirl Fat Cone Table Lamp has a strong decorative presence, with the spiral pattern and mirrored surface doing most of the work. Once illuminated, light reflects through the shade and shifts across the curved pattern, producing a layered play of light and shadow. An in-line dimmer allows the brightness to be adjusted to suit the setting. Use it in a bedroom, lounge or reading corner for softer ambient light, or pair it with the **Whirl Fat Cone Floor Lamp** for a coordinated look.

Please Note: A Dichroic filter is also available for this product. Reflecting a mix of colours throughout the shade for a more iridescent lighting effect. Contact us for pricing and information.

PRODUCT SPECIFICATION

Light Source:	6W, 3000K, 800 Lumens
IP Code:	20
Dimming:	In-line dimmer included on the cable.
Dimensions:	Height: 47.5cm Width: 30cm Cable Length: 250cm
