PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Whirl Fat Cone LED Table Lamp

The Whirl Fat Cone Table Lamp was inspired by the bold and distorted patterns of the Optical Art movement. The polycarbonate shade is crafted through a process of injection blow moulding, resulting in a lightweight and hard-wearing shade. Its spiralled form appears to balance delicately on a conical base, creating the illusion of weightlessness. The Whirl Table Lamp is available in two bold finishes: Gold and Silver. While the shade is being crafted, the vacuum metallisation process deposits a thin layer of metal on the interior of the shade, offering a semi-metallised finish.

The Whirl Fat Cone Table Lamp is as decorative off as it is when switched on. When off, it creates an intriguing display that captures the imagination. When illuminated, the abstract patterns on the shade reflect light from within, resulting in a captivating play of light and shadows. An inline dimmer on the cable allows users to adjust brightness intensity to suit any environment. Display the Whirl Table Lamp in a bedroom, lounge, or reading nook to create a soft and relaxing ambience. Display the Whirl Fat Cone Table Lamp with the [Whirl Fat Cone Floor Lamp](#) for a cohesive installation that creates a sense of balance.

PRODUCT SPECIFICATION

Light Source: 6W, 3000K, 800 Lumens

IP Code: 20

Dimming: In-line dimmer included on the cable.

Dimensions: Height: 47.5cm
Width: 30cm
Cable Length: 250cm
