PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Whirl Fat Cone LED Floor Lamp

Created by Tom Dixon, the Whirl Fat Cone Floor Lamp is the innovative lighting brand's latest experiment in mirrored reflections. Inspired by the Optical Art movement, Tom Dixon explored the use of spirals to achieve optical perceptual effects. When lit, the shades' spiral form transforms light, reflecting it into captivating patterns of shadow and light. The Whirl Fat Cone Floor Lamp is a decorative statement piece, crafted to intrigue when switched off and dazzle when switched on.

The Whirl Fat Cone Floor Lamp is available in two luxurious finishes: Gold and Silver. The polycarbonate shade appears to balance delicately on its conical base. The deep black colourway of the base brings a sense of balance to the lamp, contrasting with the bright metallic shade. The soft, glare-free glow produced by the Whirl creates a cosy and warm ambience, ideal for use in a dining room or sitting room. In commercial spaces, the Whirl's ornamental and elegant aesthetic is perfect for adding a touch of luxury to boutiques or modern bars.
