PRODUCT DESCRIPTION

Designer: Kroyer-Saetter-Lassen

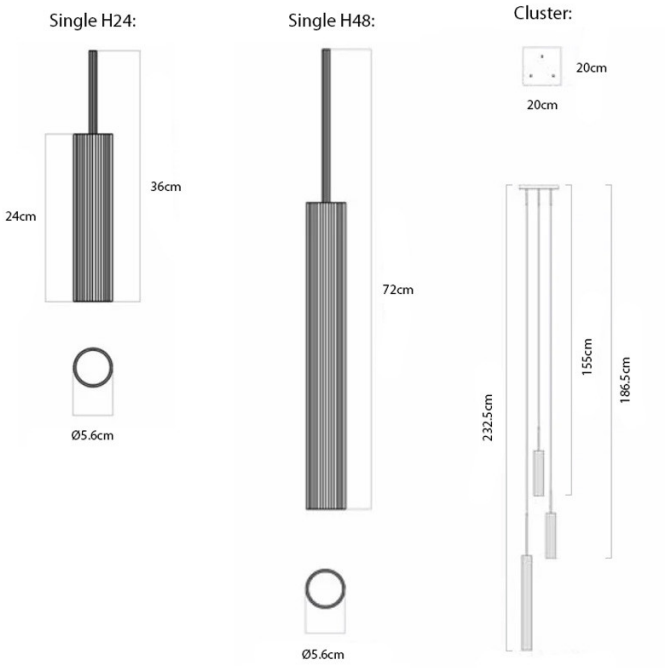

Audo Copenhagen Tubulaire Pendant Light

Audo Tubulaire reduces the pendant to a refined cylinder in reeded, anodised aluminium, finished in a warm bronzed brass tone. The slim Ø5.6 cm profile concentrates light downwards for clear task illumination, making it ideal over counters, islands and café tables while adding a subtle architectural rhythm. Available as a single pendant in two heights, H24 and H48, or as a cluster of three on a shared canopy, the family scales cleanly from intimate to more expressive compositions.

Engineered for both project and residential use, components and finishes are specified for durability. Pair singles in a line for a consistent task light or use the cluster to centre a compact dining nook. As part of the wider Audo Tubulaire family, these pendants can be combined with rail and chandelier variants to carry one material language across a whole scheme.

PRODUCT SPECIFICATION
