PRODUCT DESCRIPTION

Designer: Kroyer-Saetter-Lassen

Audo Copenhagen Tubulaire Chandelier

A statement system built from many slender elements, the Audo Tubulaire Chandelier arranges reeded aluminium pendants into balanced compositions that deliver a generous wash of downward light. Available in configurations of six, twenty or thirty-eight pendants, it scales from compact stairwells to large hospitality and workplace volumes while maintaining a refined, consistent aesthetic. The bronzed anodised finish brings warmth and depth to the graphic geometry.

Designed for demanding environments, components and cable management are engineered for longevity. Install warm GU10 LED lamps for dining zones or cooler lamps for task-oriented spaces, then extend the family language with Audo Tubulaire single pendants and rails elsewhere in the scheme.
