PRODUCT DESCRIPTION

Designer: Federico Peri

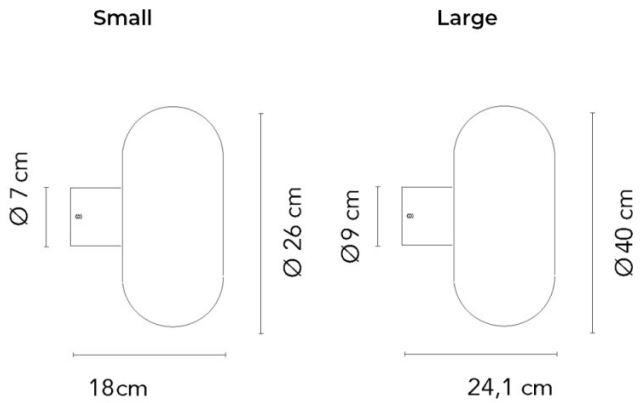

Fontana Arte Fontanella Wall Light

Fontanella by Federico Peri combines a discreet metal base with a hand-worked borosilicate glass diffuser, formed from two carefully joined elements, an inner sandblasted tube and an outer blown bubble. This craft detail lets the light shift from soft opacity to clear highlights, creating comfortable, glare-free ambience along corridors, living rooms and hotel suites. The composition sits close to the wall with a clean silhouette, so it reads calm by day and quietly luminous when lit.

Available in two sizes, small with an E14 lampholder and large with an E27 lampholder, Fontanella Wall is dimmable when used with compatible lamps. Satin Brass brings warmth to timber and stone schemes, while Glossy Black offers crisp contrast against pale surfaces. Install singly as a quiet accent, pair either side of a bed or mirror, or run a line of multiples for a composed rhythm in residential and hospitality settings.
