PRODUCT DESCRIPTION

Designer: Thomas Heatherwick

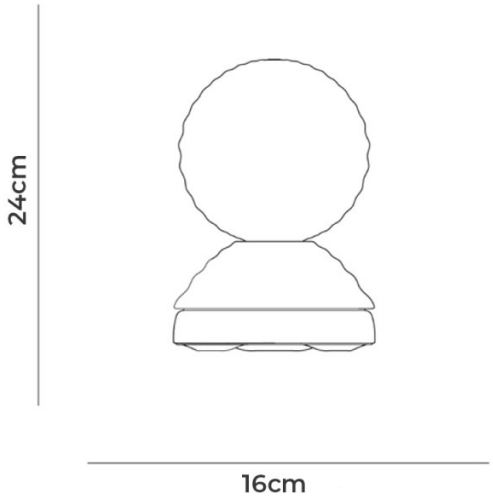

Tala Wake Sleep Lamp

To create the Wake Sleep Light, lighting brand Tala has joined forces with British designer Thomas Heatherwick. The Wake is Tala's first product in their growing smart lighting range. Smart home and app compatible, the Wake features seven calming soundscapes and light that gradually shifts from warm to bright for a natural awakening. Schedule daily wake-up and wind-down times for a personal experience that promotes regulated sleep patterns.

The Tala Wake bulb is flicker-free and boasts dim-to-warm technology for a truly comfortable feel. A low-light glass display at the base of the lamp displays time without creating a distracting glow. The hand-glazed ceramic dial allows users to adjust brightness via a smooth rotation. Designed to mimic light from a sunrise and sunset, the Tala Wake offers an innovative approach to bedside lighting that will add an elegant touch to any bedroom.
