HAY Apollo Sconce Wall Light

The HAY Apollo Sconce Wall Light, designed by Studio 0405, is a contemporary take on a classic wall light, using three mouth-blown opal glass shades set on curved aluminium arms. The contrast between the soft, organic glass and the structured frame gives the piece a sculptural presence, while the opal finish diffuses the light into a warm, glare-free glow. It is a good option where you want atmosphere and visual softness.

Mounted on the wall, the HAY Apollo Sconce Wall Light can be used to highlight specific areas or to create ambient layers through hallways, living spaces, bedrooms and hospitality interiors. The three shade layout brings a wider spread of light than a single sconce, making it effective beside a bed, above a sideboard, or repeated along a corridor. As part of the wider **Apollo Collection**, it pairs naturally with the table, chandelier and portable versions for a consistent look across a project.

PRODUCT SPECIFICATION

Light Source:	3 x Max 3W G9 LED (Excluded)
IP Code:	20
Dimming:	Dimmable via mains phase dimming.
Dimensions:	Height: 26.5cm Width: 48cm Depth: 20cm
