PRODUCT DESCRIPTION

Designer: George Nelson

HAY Nelson Roll Bubble Pendant Light

Designed by George Nelson in 1947, the Nelson Roll Bubble Pendant is part of the wider Bubble Lamp series, a collection known for its softly luminous shades and clean, modernist silhouettes. Roll has a gently squared profile that gives it a slightly more cylindrical feel than the rounder shapes in the family, while keeping the same lightweight construction. The shade is formed around a steel wire frame and finished in a translucent webbing polymer, creating a warm, diffused light that is comfortable to live with and naturally glare-free.

With its contained footprint and soft output, the Roll pendant suits dining tables, kitchen islands, bedrooms and hallways, and works particularly well when you want ambient light that still feels structured and considered. It can be used alone as a simple centrepiece, or repeated in pairs or rows to create a consistent rhythm in larger residential and commercial interiors. It uses an E27 bulb and can be dimmed with a suitable wall dimmer, allowing you to fine-tune the ambience through the day and evening.

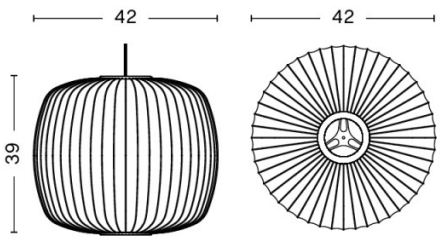

PRODUCT SPECIFICATION

Light Source: 1 x Max 8W E27 LED (Excluded)

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Height: 39cm
Width: 42cm
Cable Length: 300cm
