PRODUCT DESCRIPTION

Designer: John Tree

Tala Loop Pendant

The Tala Loop Pendant is an elegant diffused lighting solution, consisting of a sleek anodised aluminium structure and a Tala Sphere IV LED Bulb. Available in either dark grey or matt gold, this suspended luminaire provides an evenly dispersed glow that is perfect for above a dining table, kitchen island or even a bedside table due to its more compact size. Loop can be installed independently, in linear rows or in clusters at varying heights, depending on the size of your space.

The Loop Pendant utilises dim to warm technology, meaning the colour temperature is automatically warmed as the brightness decreases. The result is a cosy ambience that can adapt to a variety of spaces and goes from day to night at the turn of a dial. To further enhance the capabilities of the Tala Loop Pendant it also boasts an IP rating of 44, meaning it can even be used in bathrooms and wet rooms.

Please Note: The glass globe housed in the base of the Tala Loop is a replaceable Sphere IV LED Tala bulb and not a diffuser.
