PRODUCT DESCRIPTION

Designer: Paolo Lucidi & Luca Pevere

Foscarini Aplomb Mini Wall Light

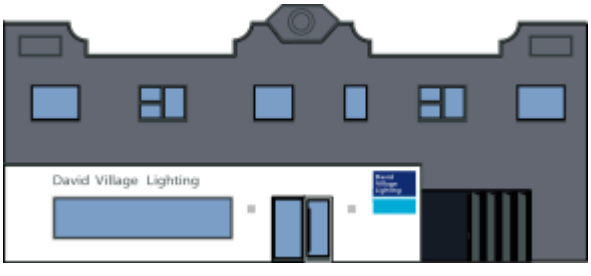

The Foscarini Aplomb Mini Wall Light brings the collection's concrete character into a compact wall format that feels simple and considered. Designed by Paolo Lucidi and Luca Pevere, it keeps the same architectural sensibility as the Aplomb pendants, using a slim concrete form to create a clean, purposeful presence on the wall, ideal when you want a refined fixture rather than something decorative.

The Aplomb Mini Wall is well suited to focused lighting in hallways, beside beds, near mirrors, or to pick out features like artwork and shelving. It is available in four finishes, white, anthracite, brown and classic concrete grey, letting you match it quietly to the background or use it as a subtle contrast. With a compatible dimmable lamp it can be dimmed to adjust the ambience from practical brightness to a softer evening glow.
