PRODUCT DESCRIPTION

Designer: Verner Panton

&Tradition Flowerpot VP10 Pendant

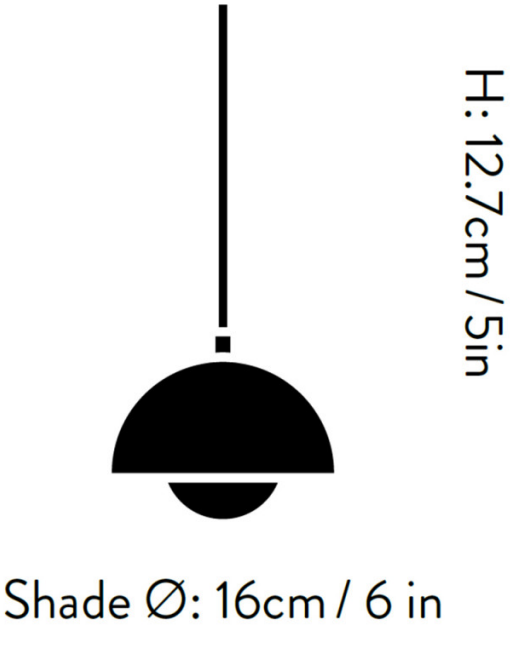

BRAND NEW, OVERSTOCK. BOXED IN ORIGINAL PACKAGING.
1 x Matt Matt White Available.

The &Tradition VP10 Pendant is the newest addition to the Flowerpot collection, designed for smaller spaces. Measuring 16cm in diameter, it comes in all 14 colourways, along with the re-issue of a Panton original featuring the black and white wave-pattern design. This pendant is a classic: a playful yet minimal product that remains among some of the most iconic works of Danish design. The &Tradition Flowerpot was originally designed in 1968 by Verner Panton, consisting of two hemispheres, one exactly half the size of the other, that work together to hide the light source from view, reflecting and diffusing its light around the room in the process. The result is an even and glare-free light diffusion.

The &Tradition Flowerpot VP10 Pendant can be displayed individually or grouped together in linear configurations or chandelier clusters for larger areas. This pendant is a great addition to bedsides, kitchens, dining rooms and living spaces. It can also be used in commercial spaces such as hotels, restaurants, bars, lobbies and offices.
