PRODUCT DESCRIPTION

Designer: Tala Lighting

Tala The Muse 2.0 Portable Lamp

Tala The Muse 2.0 Portable Lamp is the updated version of Tala's lantern-style portable light, retaining the recognisable form of the original while revising the internal architecture and charging system. The battery-powered design is IP44-rated for indoor and outdoor use and delivers 350 lumens with smooth Dim to Warm dimming, shifting from 1800K at lower brightness levels up to 2800K at full output. New finishes including Claycourt Orange and Posset Yellow extend the range, while the revised construction brings a strengthened dimmer dial, a reinforced lamp holder and a repositioned battery indicator.

Charging is faster and more flexible here, with USB-C PD and wireless charging both bringing the lamp to full charge in as little as 5.5 hours, with 50 percent restored in around two hours. Battery performance has also been increased, giving up to 10 hours at full power and over 30 hours at lower brightness levels, and the lamp can reverse charge a phone or small device when needed. A replaceable battery pack and a total battery lifetime of 5000 hours plus across 500 charge cycles continue Tala's longer-life approach, making this a useful portable lamp for bedrooms, living spaces, terraces, restaurants and hospitality settings.

PRODUCT SPECIFICATION

Light Source:	1 x Max 6W E27 LED Tala Muse Bulb (included)
IP Code:	44
Dimming:	Integrated dimmer on the product.
Dimensions:	Shade: Ø12.5cm Height: 33.8cm
