PRODUCT DESCRIPTION

Designer: Tala Lighting

Tala The Rugged Muse 2.0 Portable Lamp

Tala The Rugged Muse 2.0 Portable Lamp is the adventure-ready version of Tala's award-winning Muse lantern, made from raw aluminium with solid brass detailing and a shatter-resistant acrylic shade. It keeps the distinctive design and presence of the original, but introduces a harder-wearing construction and reinforced internal architecture for more demanding use.

The Rugged Muse 2.0 brings extended battery life, faster USB-C PD and wireless charging, and reverse charging capability, allowing the lamp to power a phone or other small device when needed. Its rotary Dim-to-Warm control moves from a very warm 1800K at lower brightness to 2800K at full output, giving a broader colour temperature range and a warmer ambient glow at lower light levels.

Rated IP65, The Rugged Muse 2.0 moves easily between indoor and outdoor settings, with over 30 hours of use at lower brightness settings, a 5.5-hour full charge time, and repairable construction with replaceable battery, acrylic, and light source components. It is a more durable version of the Muse 2.0, built for longer ownership and more regular outdoor use.

Best suited for patios, terraces, garden tables, reading corners, camping setups, and relaxed hospitality settings due to its soft light output, durable housing, and portable nature.

PRODUCT SPECIFICATION

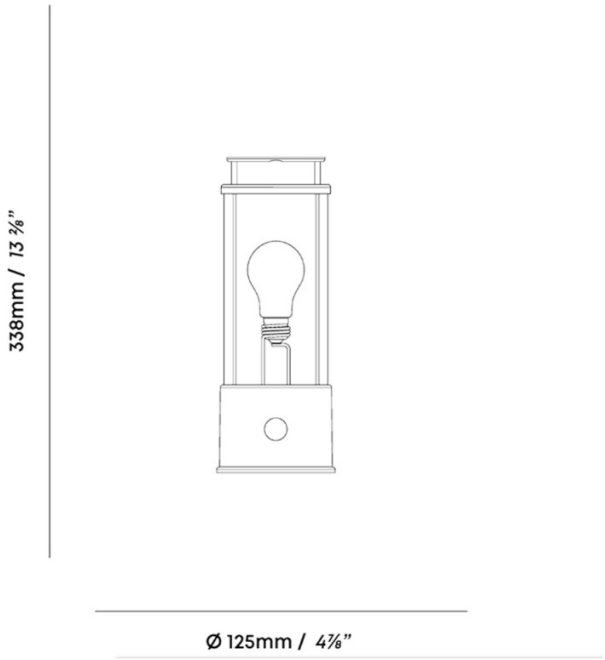

Light Source: 1 x Max 6W E27 LED (Included)

IP Code: 65

Dimming: Integrated dimmer on the product.

Dimensions: Shade: Ø12.5cm
Height: 33.8cm

Charging Cable Length: 150cm
