PRODUCT DESCRIPTION

Designer: Ramos & Bassols

Vibia Duo Dome Angled LED Ceiling Light

The Vibia Duo Dome Angled LED Ceiling Light takes the same contrast of materials as the original Duo Dome and applies it to a more directional form. Designed by Ramos & Bassols, the fitting pairs a smooth white aluminium exterior with an oak or walnut veneer interior, bringing warmth to an otherwise pared-back silhouette. The gentle angle in the dome gives the piece a slightly more dynamic profile and makes the timber lining more visible from below, adding a softer, more architectural feel.

This version directs the light at an angle rather than straight down, making it a good option for spaces that need a more considered spread of illumination. The light still feels broad and comfortable, but with a clearer sense of direction that can help draw attention across a surface or better suit the shape of a room. Used alone or in multiples, it offers a clean ceiling solution with a warmer finish than an all-metal fitting.

Please note, this product is also available in a larger Ø70cm version. Contact us for pricing and information.

PRODUCT SPECIFICATION

Light Source:	12W, 2700K, 644 Lumens
IP Code:	20
Dimming:	Dimmable via 1-10V/push to make dimming systems. Please consult your electrician, additional wiring may be required on-site.
Dimensions:	Shade: Ø35cm Height: 23cm
