PRODUCT DESCRIPTION

Designer: Bernhard Osann

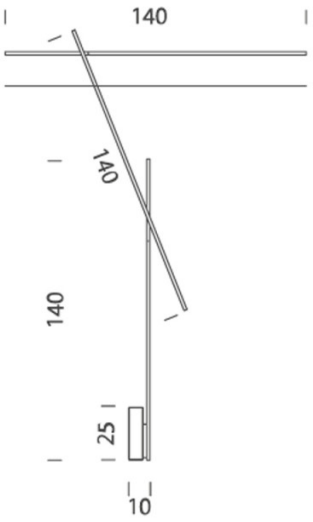

Nemo Lighting Flamingo LED Floor Lamp

German designer Bernhard Osann is renowned for creating interactive products that are stripped of unnecessary detail. This is beautifully reflected in the Flamingo Floor Lamp, a movable lamp that boasts a contemporary, minimalistic aesthetic. Through well-considered distribution of weight, the frame can be adjusted while maintaining balance and stability. The frame moves without friction, allowing users to easily adjust its position to create compositions that suit any situation.

The integrated LED light source, available in 2700K or 3000K, emits a wide beam of light that can be focused for functional or decorative use. A dimmer on the frame allows users to adjust light intensity to shift the mood at the touch of a button. Through manual interaction and flexibility, the Flamingo Floor Lamp becomes an active presence in any space, offering ever-changing lighting with an element of playfulness.
