PRODUCT DESCRIPTION

Designer: Ernesto Gismondi

Artemide Nur 1618 LED Pendant Light

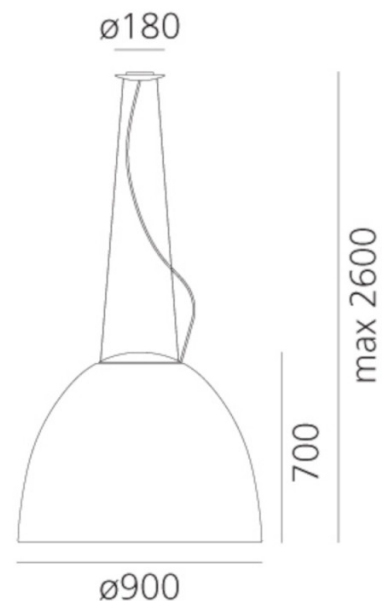

Artemide Nur 1618 LED Pendant Light manifests its presence through a monolithic and mono-material body, where the essential and geometrically calibrated lines of a perfect parabola conceal the optical heart. Designed by Ernesto Gismondi, it provides general ambient lighting with direct and indirect diffused emission, controlling the light without offending direct vision.

The 1618 version takes the Nur form into a broader suspended scale, so the fitting reads more architecturally than the smaller pendants in the range. Its aluminium, methacrylate, and glass construction keeps the form clean and concentrated, while the wider body and integrated LED are intended for larger interiors that need a more substantial pendant.

Artemide Nur 1618 LED Pendant Light is available in Anodized Aluminium and Anthracite Grey. It keeps the same parabolic profile as the wider Nur family, but in a larger format with stronger output and a more commanding presence. Best suited for open-plan living spaces, larger dining areas, entrance halls, and hospitality interiors where a pendant can provide general ambient lighting with a strong architectural silhouette.

PRODUCT SPECIFICATION

Light Source:	80W, 3000K, 4308 Lumens
IP Code:	20
Dimming:	Push to make/ switch dimming, dimmable using push to make switches. Please consult your electrician, additional wiring may be required on site.
Dimensions:	Height: 70cm Shade: Ø90cm Base: Ø18cm Cable Length: 260cm
