## PRODUCT DESCRIPTION

**Designer:** Poul Henningsen

### Louis Poulsen PH 1/1 Portable LED Lamp

Louis Poulsen PH 1/1 Portable LED Lamp is a cordless version of the classic PH Table Lamp, using the smallest shade set from Poul Henningsen's System PH. The 1/1 is a whole number from the System PH, with a full set of shades from the same scale, and this compact portable version is described by Louis Poulsen as a contemporary interpretation of the PH System made with respect for the original concept.

The mouth-blown white opal glass shades use a three-layer construction, sandblasted on the underside, with an inner diffuser around the LED for a non-glare light experience. The lamp offers softly diffused PH light with Dim-2-Warm from 1800K to 2700K, stepless-dim or 4-step-dimming, a memory function, replaceable shades, a replaceable battery, and charging via USB-C or QI wireless charging.

The PH 1/1 Portable LED Lamp is available with opal white glass and either metallised brass or high-lustre chrome. Rated IP44, it can be used indoors or outdoors, making it suited to bedside tables, bookcases, terraces, dining tables, and areas where electricity is not easily accessible.

## PRODUCT SPECIFICATION

| | |
|---|---|
| **Light Source:** | 2.5W, 1800-2700K, 9/36/90/200 Lumens |
