PRODUCT DESCRIPTION

Designer: Christophe Mathieu

Bover Platet A/02 Wall Light

BRAND NEW, OVERSTOCK. BOXED IN A-GRADE ORIGINAL PACKAGING.
4x Black/Antique Brass Available.

The Bover Platet Wall Light was designed by Christophe Mathieu, who was inspired by typical industrial-looking wall lamps in La Escala. This lighting solution consists of a slender black aluminium frame and a striking antique brass shade. Platet is a luminaire that recovers the idea and structure of the classic industrial-looking wall lamps, giving it a new concept, to adapt it to current times and needs in terms of technology and design.

The inner LED light source of the Bover Platet A/02 Wall Light is projected down onto the surface below, providing a warm, indirect illumination that can adapt to a variety of interiors. This luminaire is an elegant addition to kitchens, hallways, bedrooms and reading nooks.
