Astro Mast Coastal Wall Light

Astro Mast Coastal Wall Light is a compact wall light made from pressed ceramic for coastal conditions. The light is cast downwards onto the wall, giving a clear but gentle output without glare.

The coastal version is rated IP44 and can be used in bathroom zones 2 and 3. It is available in Gloss Glaze White and Gloss Glaze Black, as well as a variety of concrete finishes, giving the fitting a tactile surface that is intended to remain largely unchanged during use. Best suited to coastal homes, exterior walls, entrances, porches, patios, and bathroom zone 2 or 3 wall lighting.

Mast Coastal uses one GU10 lamp, sold separately, and can be dimmed when used with a compatible dimmable bulb. It is wired in, Class I, and suitable for mounting on flammable surfaces. This version is suitable for use within five miles of the coast or in other onerous environments.

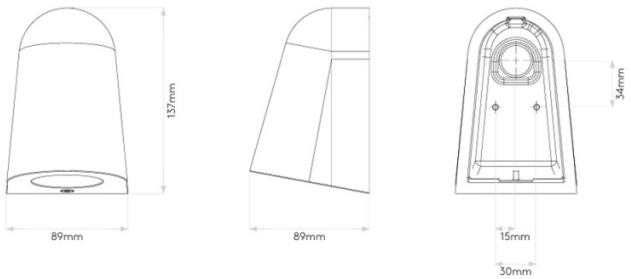

PRODUCT SPECIFICATION
