PRODUCT DESCRIPTION

Designer: Ichiro Iwasaki

Vibia Closer Outdoor LED Pendant

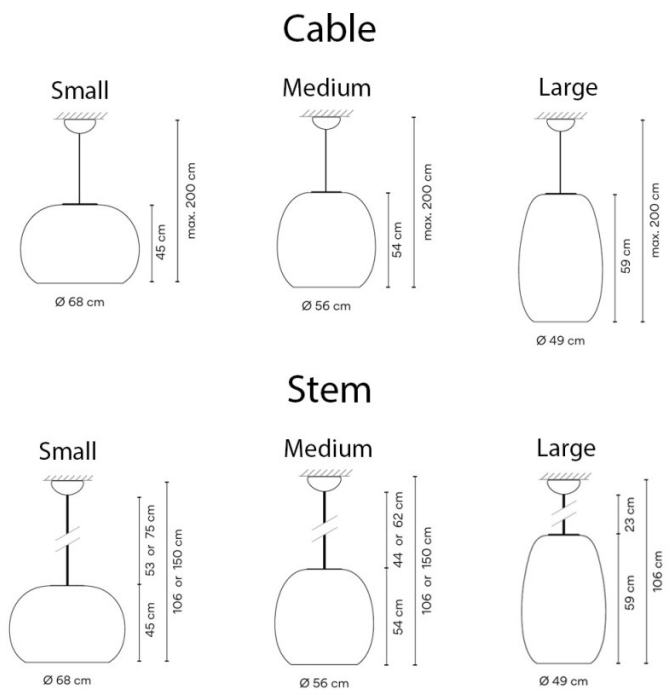

Designed by Ichiro Iwasaki, the Closer Pendant is a versatile, lightweight luminaire that brings the delicate essence of interior lighting outdoors. Meticulously handcrafted, the shade is braided into a firm yet malleable mesh, resulting in a vibrant texture with visual depth. UVA-radiation-protected and with an IP rating of 44, the pendants are suitable for installation in covered outdoor areas. The Closer Pendant is available in natural tones of Beige, Terra Red, and Green, which complement indoor and outdoor spaces alike.

The Closer Pendant is available with a 200 cm cable or a fixed metal stem in two lengths (106 cm and 150 cm). These options allow for unique compositions of shades hanging at different heights. When illuminated, the mesh shade diffuses light into a warm glow, while subtly directing light downwards to softly illuminate surfaces. This ambient glow is perfect for creating serene and enveloping atmospheres in outdoor dining areas. Display in residential or hospitality spaces to illuminate terraces, patios, and living rooms with a warm and inviting glow.

The Closer Pendant can also be supplied with Dali and Casambi dimming systems. Other canopy options are also available. Contact us for more information and pricing.
