PRODUCT DESCRIPTION

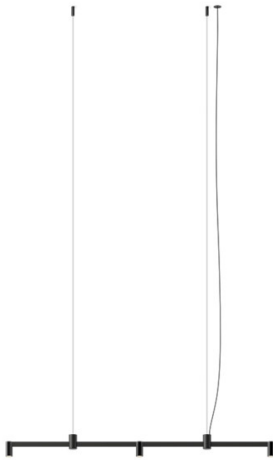

Designer: Arik Levy

Vibia Nexum Lineal LED Pendant / Ceiling Light

The Vibia Nexum Lineal LED Pendant / Ceiling Light is designed for spaces where illumination needs to follow a clear, continuous path. Its slim black aluminium structure carries a series of precisely positioned LED points, creating a linear rhythm that works well above kitchen islands, dining tables, counters, workstations and corridors. The downlighting models (5120, 5122 and 5124) can be installed as either ceiling-mounted or suspended versions, while the dedicated suspended models (5150, 5152 and 5154) add uplighting for a more expansive ambient effect.

Available in 120cm, 180cm and 270cm lengths, the Lineal typology gives Nexum a more directional and architectural character. The integrated 3000K LED source provides warm, controlled illumination, with larger models giving greater coverage across long surfaces and circulation routes. Additional spots may also be specified where required.

Please note, 2700K, 3500K and 4000K options are available.
