PRODUCT DESCRIPTION

Designer: BIG

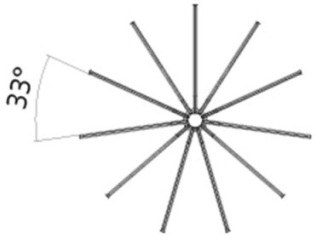

Artemide Veil LED Suspension Light

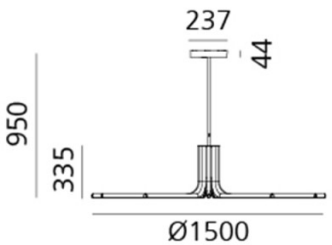

Designed by BIG, Bjarke Ingels Group, the Artemide Veil LED Suspension Light introduces the collection through a wide, fluid structure with a precise architectural feel. Its slim curved arms create a large circular presence while keeping the overall design visually light, with a 2.5cm diameter structure that integrates advanced optics into the body of the fitting. The result is a refined LED suspension light that feels sculptural without becoming heavy, suited to interiors where the lighting needs to form part of the room's architecture.

The Veil Suspension Light is available in Grey and White finishes, with standard and APP Compatible variants. Its integrated 74W LED source provides a warm 3000K light with 4192 lumens and CRI 90 colour rendering, giving the fitting enough presence for dining spaces, meeting rooms, reception areas, hospitality interiors and open-plan residential settings. At 1500mm in diameter, Veil works particularly well above larger tables, central seating areas or commercial spaces where a clean, controlled feature light is required.

PRODUCT SPECIFICATION

Light Source:	74W, 3000K, 4192 Lumens
IP Code:	20
Dimming:	Push to make/ switch & Dali dimming, dimmable using push to make switches or Dali dimming systems. Please consult your electrician, additional wiring may be required on site.
Dimensions:	Height: 95cm Shade: Ø150cm Cable Length: 95cm
