## PRODUCT DESCRIPTION

Designer: Antoni Arola

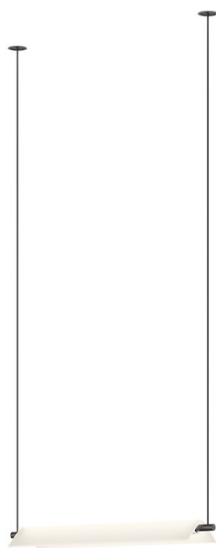

### Vibia Asia LED Suspension Light

Vibia Asia LED Suspension Light combines balance and precision in a luminaire that celebrates the purity of glass, with a pitched-roof form that filters light from within. The lacquered glass shade gives the pendant its soft, translucent quality, while the tilted profile directs light towards the surface below.

Available in three lengths, the Asia LED Suspension Light can be used as an individual pendant or arranged in linear configurations above tables, counters, and workspaces. Surface, Built-in XS, and Remote Micro electrical connection options are listed by Vibia, allowing the pendant to be specified for different ceiling conditions.

The 2700K LED output gives Asia a warm, diffused, and directional light, with Black, Warm White, and Beige finishes framing the glass. Most suited to dining tables, kitchen islands, workstations, meeting areas, and essential or industrial interiors.

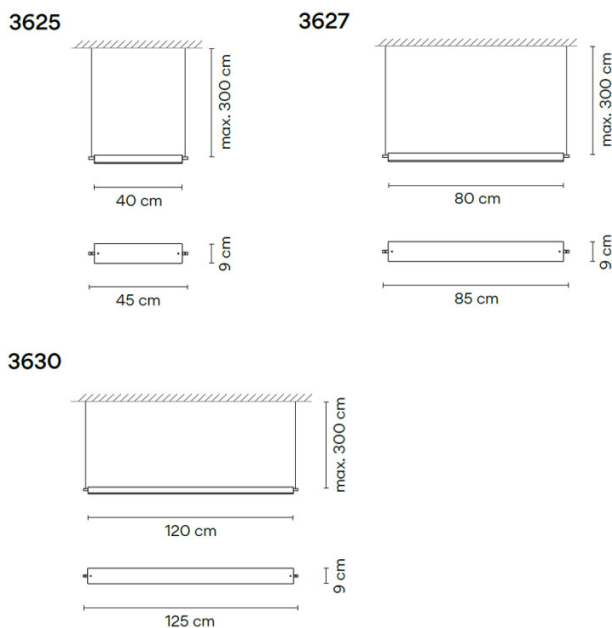

**Please note, this product comes with a surface-mounted electrical connection as standard. Built-in and Remote Micro options are available. [Contact us](#) for pricing and information.**

## PRODUCT SPECIFICATION

- Light**           **3625:** 5.6W, 2700K, 553 Lumens
- Source:**       **3627:** 12W, 2700K, 1185 Lumens
