PRODUCT DESCRIPTION

Designer: Astro Design Team

Astro Tacoma Single Reed Wall Light

Astro Tacoma Single Reed Wall Light is a wired-in wall light with a vertical wall-mount orientation, IP44 rating, and a choice of Antique Brass, Matt Black, or Polished Chrome body finishes.

This version uses the longer Reed shade format, with Reed White and Reed Ribbed Smoke shade options available. The shade is sold separately and paired with the Tacoma Single wall body, giving the fitting a more elongated glass profile than the round or tulip versions.

The Tacoma Single Reed Wall Light is unswitched and dimmable depending on the lamp selected, with Class I earthed construction and no separate driver required. It can be specified on its own, used in pairs, or combined with other fittings from the Tacoma collection. Most suited to bathrooms, hallways, bedrooms, dining rooms, and wall-lighting schemes using a longer glass shade.
