Astro Tacoma Twin Tulip Wall Light

Astro Tacoma Twin Tulip Wall Light is a wired-in wall light with two lamp holders, an IP44 rating, and a choice of Antique Brass, Matt Black, or Polished Chrome body finishes. This page covers the Tulip shade options, with Tulip White and Tulip Ribbed Smoke shades available.

The Tulip shade gives the Tacoma Twin a more shaped glass profile than the Globe version, while still using the same vertical wall-mounted body. The White shade keeps the appearance softer and more opaque, while the Ribbed Smoke shade gives the fitting a darker glass finish with visible ribbed texture.

The Tacoma Twin Tulip Wall Light is unswitched and dimmable depending on the lamps selected, with Class I earthed construction and no separate driver required. The shades are sold separately and must be selected with the wall light body. It can be used alone, in pairs, or alongside other fittings from the Tacoma collection. Most suited to bathrooms, hallways, bedrooms, dining rooms, and wall-lighting schemes where a twin glass fitting is required.

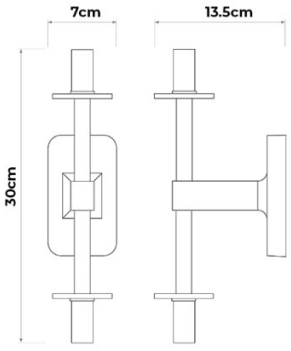

PRODUCT SPECIFICATION
