## PRODUCT DESCRIPTION

**Designer:** Tom Dixon

### Tom Dixon Flare LED Pendant Light

The Tom Dixon Flare LED Pendant is the Silver version of the Flare collection, pairing a sculptural glass shade with an integrated LED light source. Inspired by the glass elements found in archetypal chandeliers, Flare reworks familiar decorative forms into two simpler pendant shapes, Bead and Top. Both versions use a darker metallised silver finish, giving the glass a reflective quality that changes with the room around it.

The Silver finish is made from borosilicate glass, heated and hand turned before being aluminium-metallised to create internal reflections through the shade. Bead has a fuller, droplet-like form, while Top has a more tapered silhouette, so the two can be used separately or grouped together where a varied hanging arrangement is needed. The 3.5m black fabric cable gives enough drop for higher ceilings, stairwells, dining areas, and commercial spaces where pendants may need to be set at different heights.

This version of Flare includes an integrated LED light source and is dimmable using leading edge and trailing edge dimming. It is available in the Bead and Top shapes, both in Silver, with a mirrored finish and black cable. Most suited to dining tables, kitchen islands, stairwells, entrance spaces, and clustered pendant arrangements in residential or hospitality interiors.

## PRODUCT SPECIFICATION

**Light Source:** 6W, 3000K, 800 Lumens

**IP Code:** 20

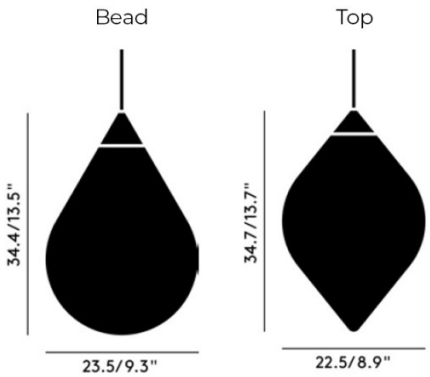

**Dimming:** Dimmable using leading edge and trailing edge.

**Dimensions:**

**Bead:**
Height: 34.4cm
Shade: Ø23.5cm

**Top:**
Height: 34.7cm
Shade: Ø22.5cm

Cable Length: 350cm
