Tom Dixon Flare Pendant Light

The Tom Dixon Flare Pendant is the Opal version of the Flare collection, a glass pendant family inspired by archetypal chandeliers and scientific glassware. Available in Bead and Top shapes, Flare uses rounded, droplet-like forms that feel decorative but still clean enough for contemporary interiors. The Opal finish gives the pendant a softer look, with a white fabric cable to match the lighter shade.

The Opal shade is made from mouth-blown triple-layer cased glass, with clear, opal, and clear layers used to create warm, evenly diffused illumination. Bead has a fuller, ballooning shape, while Top is slightly narrower and more tapered, allowing the two forms to be used separately or combined in a more varied composition. The 350cm cable gives flexibility for higher ceilings, repeated drops, and grouped installations over dining tables, kitchen islands, stairwells, and open living spaces.

This version is supplied with an ES lamp fitting and requires a compatible T10 or T12-shaped E27 lamp, which is not included. It is dimmable via mains phase dimming when used with a suitable dimmable lamp and compatible control system. Most suited to dining rooms, kitchen islands, living spaces, hallways, and softer pendant arrangements where diffused glass lighting is needed.

PRODUCT SPECIFICATION

Light Source: 1 x Max 15W E27 T10 or T12 (Excluded)

IP Code: 20

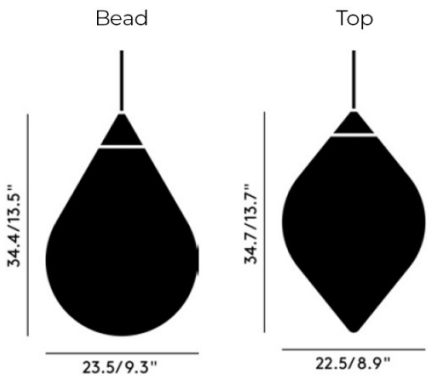

Dimming: Dimmable via mains phase dimming.

Dimensions:

Bead:
Height: 34.4cm
Shade: Ø23.5cm

Top:
Height: 34.7cm
Shade: Ø22.5cm

Cable Length: 350cm
