PRODUCT DESCRIPTION

Designer: Tala Lighting

Tala Kilter 2.0 Wall Light

The Tala Kilter 2.0 Wall Light is an upgraded version of the Kilter Wall Light. Featuring improved bulb security, new finishes, and multi-finish faceplates, this new edition opens a wider range of projects and specifications. The Kilter Wall Light is named after the sense of calm and harmony that it creates. Formed from clean, geometric shapes, it boasts a sleek, balanced appearance that evokes a sense of serenity. The tubular borosilicate glass bulb appears to cut through the circular body, hiding any internal components and reducing unnecessary details.

When switched on, the frosted glass emits an even spread of light in every direction while bathing the wall behind it in a warm glow. This gentle wash of light creates a warm task light with added ambience that suits residential and commercial environments alike. Its IP44 rating allows the Kilter to be installed in damp and humid environments such as bathrooms and wet rooms.

The Kilter 2.0 Wall Light is customisable to suit a range of projects and specifications. It is available with a white body and white faceplate, or with a dark grey body and dark grey faceplate. For metal finishes, a solid brass body is available with either a polished brass or brushed brass faceplate. The stainless-steel body is available with either a polished steel or brushed steel faceplate. If required, the body and faceplates can be mixed and matched to create numerous combinations. The fixture can be installed vertically or horizontally to suit a variety of applications such as framing a doorway or over a mirror.

Please Note: The Tala Kilter Wall Light is supplied with a 2700K bulb, but a 2200K bulb is available. Additionally, the body and faceplates can be mixed and matched outside of the configurations shown. Please contact us for more information and pricing.

PRODUCT SPECIFICATION

Light Source: 1 x Max 6W S14D LED (Included)

IP Code: 44

Dimming: Dimmable via mains phase dimming.

Dimensions: **Small**:
Ø3cm
Height: 50cm

Large:
Ø3cm
Height: 64cm

Sconce:
Ø10.7cm
Depth: 5.5cm
