Designed by Madrid designer David Lopez Quincoces, the Oluce Ilo Suspension is a linear LED downlighting solution, crafted from aluminium. This linear luminaire is divided into two parts by colour. The first gives the effect of a handle, while the second houses the long LED bulb. Ilo's architectural references and clean lines are the perfect counterbalance to its subtle decorative spirit and exquisite finishes, creating a multifaceted beauty that can fit into an array of settings and styles. The vast length of the Oluce Ilo LED Suspension is in harmonious contrast with its slim profile, creating a striking silhouette and generating a perfect lamp for above dining tables, kitchen islands and reception desks.
