PRODUCT DESCRIPTION

Designer: Foster and Partners

Artemide Hoy LED Semi-Recessed Spotlight

Artemide Hoy LED Semi-Recessed Spotlight is an adjustable ceiling projector by Foster + Partners Industrial Design. Its cylindrical body sits partly within the ceiling and partly below it, allowing the spotlight to tilt through 90° and rotate through 360°. The design is available in 65mm and 90mm sizes, with a choice of Black or White finishes.

Four beam angles are offered for each size. Narrower beams can be used to pick out artwork, shelving, displays, or architectural details, while the wider options spread light across a broader area. The 65mm version uses low-glare TIR optical technology, and both sizes can be redirected after installation to suit changes within the room.

Each configuration listed on this page includes a compatible non-dimmable driver and trimless installation frame. The integrated LED provides warm 3000K light with a CRI of 90, supporting clear and accurate colour rendering throughout the space. Most suited to kitchens, living rooms, hallways, galleries, retail displays, and commercial interiors requiring adjustable directional light.

Please Note: The Artemide Hoy LED Semi-Recessed Spotlight is also available in 2700K and 4000K colour temperatures. Optional accessories include a honeycomb, soft filter, lens for elliptical emission, alternative trim frames, and dimmable drivers. Please [contact us](#) for more information.

PRODUCT SPECIFICATION

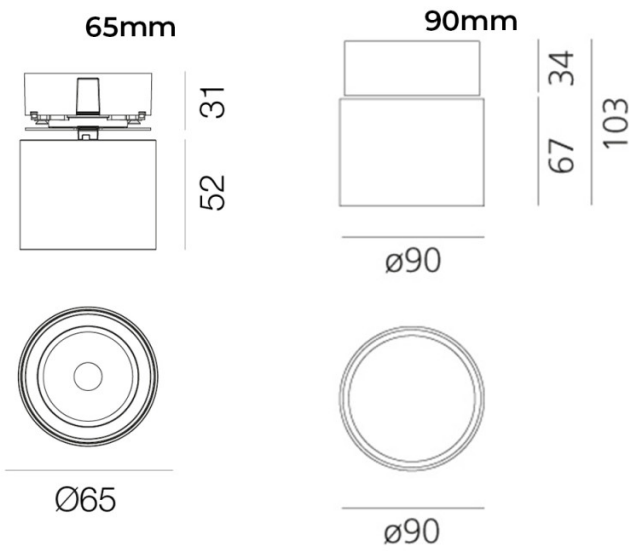

Light Source: **65mm:** 15.5W, 3000K, Lumens: 17° 1648, 23° 1544, 31° 1674, 50° 1561
90mm: 19W, 3000K, Lumens: 13° 2053, 24° 1924, 50° 1915, 67° 1784

IP Code: 20

Dimming: Non-Dimmable.

Dimensions: **65mm:**
Height: 6.7cm
Fixture: Ø6.5cm
Recessed Depth: 3.1cm

90mm:
Height: 10.3cm
Fixture: Ø9cm
Recessed Depth: 7cm
