PRODUCT DESCRIPTION

Designer: Xavier Manosa

Marset Pleat Box 47 LED Pendant

Marset Pleat Box 47 Pendant is the largest size in the Pleat Box collection, designed by Xavier Mañosa and Mashallah for Marset. The design began with the idea of applying a digitally designed fabric crease to a ceramic form, giving the shade its folded upper edge and soft, draped shape. Each shade is handcrafted in ceramic, so the material, folds, and surface finish are central to how the pendant looks in a room.

The Pleat Box 47 has a broad ceramic shade that gives it real presence over dining tables, kitchen islands, counters, and larger seating areas. Its interior is available in glossy white enamel or a 24-carat gold-plated finish, changing the character of the light inside the shade. White gives a cleaner, brighter effect, while the gold interior brings a warmer tone to the light and adds more contrast against the ceramic exterior.

This E27 version is supplied with a ceramic canopy in the same colour as the chosen shade and a black fabric cord. The lamp is excluded, allowing the output and dimming performance to be chosen around the space and installation. Most suited to dining rooms, kitchens, living rooms, restaurants, hotels, and interiors where a large ceramic pendant can act as the main light over a table, counter, or seating area.

Please Note: The Marset Pleat Box 47 LED Pendant can also be supplied with DALI-2 dimming and 3000K options. Please contact us for more information and pricing.

Please Note: As of November 2026 all Marset Pleat Box Pendants are supplied with a black cable and a canopy in the same colour as the selected shade.

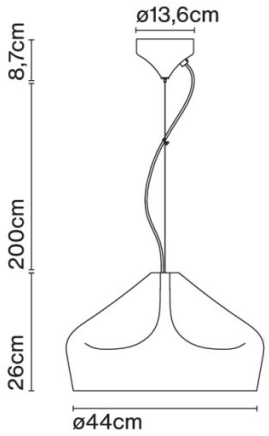

PRODUCT SPECIFICATION

Light Source: 19.71W, 2700K, 625 Lumens

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Shade: Ø44cm
Shade Height: 26cm
Cable Length: 200cm
