PRODUCT DESCRIPTION

Designer: Lucie Koldova

Brokis Starcloud LED Table Lamp

A 2026 addition to the **Starcloud collection**, the Starcloud Table Lamp was designed by Lucie Koldova, who drew her inspiration from the night sky and the Milky Way. The silhouette of this table lamp is based on an abstract astral shape that evolves fluidly into three distinct objects: Atria, Lyra, and Vega, each of which is a handblown work of art in its own right. These elegant forms create subtly varying optical effects depending on the viewing angle, appearing to shift in shape. The glass can be supplied with either smooth or textured glass, in a variety of finishes including opaque opaline, pearl pink opaline, pearl grey opaline, and olive opaline.

The Brokis Starcloud LED Table Lamp adds a unique touch to your space, providing softly diffused illumination that can be further personalised through the integrated dimmer to create the perfect ambience for your needs. Starcloud is a stunning addition to living rooms, dining rooms, bedrooms and in multiples for larger commercial spaces. An excellent way to add cosy accent lighting to hotels, restaurants and bars. This design can be displayed individually or alongside other applications in the collection.

PRODUCT SPECIFICATION

Light Source: 2.5W, 2700K, 250 Lumens

IP Code: 20

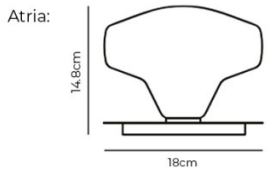

Dimming: Integrated dimmer on the product.

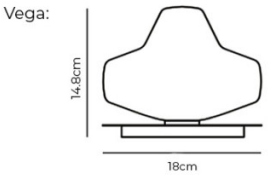

Dimensions:
