PRODUCT DESCRIPTION

Designer: Lucie Koldova

Brokis Starcloud LED Wall Light

Designed by Lucie Koldova, the Brokis Starcloud Wall Light is a subtle addition to the **Starcloud Collection**. This luminaire is inspired by space, more specifically the night sky and the Milky Way, adding an ethereal aesthetic to your interior. Starcloud is available in three silhouettes, based on three abstract astral shapes: Atria, Lyra, and Vega and allows you to choose from a range of glass finishes. It can be installed independently on your walls for more compact areas, or in multiples and large configurations for more vast spaces and commercial settings. Similarly, you can combine varying glass colours for a truly eye-catching formation.

The Starcloud LED Wall Light provides softly diffused illumination that generates a warm and inviting atmosphere. This makes the luminaire perfect for bedrooms, reading nooks, dining rooms and hallways. An excellent way to create cosy pockets of light without compromising on unique design.

Please Note: The Brokis Starcloud Wall Light is supplied as non-dimmable as standard, but can also be provided with different dimming capabilities. Please Contact Us for further information and pricing.

PRODUCT SPECIFICATION

Light Source: 2.5W, 2700K, 250 Lumens

IP Code: 20

Dimming: Non-Dimmable.
