PRODUCT DESCRIPTION

Designer: Le Corbusier

Nemo Lighting La Roche LED Wall Light

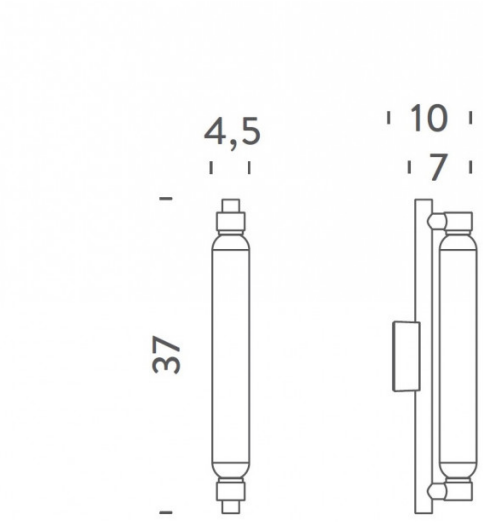

BRAND NEW, OVERSTOCK. BOXED IN A-GRADE ORIGINAL PACKAGING.
2 x Matt Black Available.

The La Roche wall light was designed by Le Corbusier, an iconic designer who pioneered modern architecture. This wall lamp was first conceived by Le Corbusier for his architectural projects, Villa La Roche and Pavillon de l'Esprit Nouveau, which were both completed by the mid 1920s. Now restored to its original style and proportions by Nemo Lighting, the La Roche wall lamp also has an integrated LED light source which is dimmable and long-lasting.

The wall light is made with a simple matt black aluminium structure and has a glass shade that diffuses the light and creates a warm glow. The La Roche LED light is suitable for many spaces, whether you need to line a corridor or a handy light in your lounge. La Roche Wall Light is IP45 rated and is therefore suitable for use in zone 2 of a bathroom.
