PRODUCT DESCRIPTION

Designer: Hollis + Morris

Hollis + Morris Stala LED Portable Table Lamp

The Hollis + Morris Stala LED Portable Lamp is a more compact addition to the collection. Available in two sizes, with either one or two wooden spheres and a single hand-blown glass diffuser, Stala adds an organic aesthetic to any interior. Resting in balance, the illuminated form recalls the grounded growth of stalagmites, solid and ascending. This portable lamp is crafted from either white oak or natural walnut and offers the choice between four finishes: W.Oak / Natural, W.Oak / White, W.Oak / Black, or Walnut / Natural.

The glass sphere on the top of the Hollis + Morris Stala LED Portable Table Lamp encases the inner LED light source and results in an evenly diffused, glare-free illumination. The warmth of the glow makes a striking addition to bedrooms, living rooms, dining areas and commercial hospitality spaces.

Please Note: The Hollis + Morris Stala Portable Lamp is also available with a colour temperature of 2700K. Please Contact Us for more information.
