PRODUCT DESCRIPTION

Designer: Jaume Ram3rez

Marset Fragile A1 Wall Light

The Marset Fragile A1 Wall Light evokes remnants of the past. Its familiar design echoes the timeless form of an archetypal table lamp, reimagined to suit contemporary interiors. Designer Jaume Ram3rez explores and experiments with glass, creating a central cylinder, a conical shade, and a spherical shade which can be combined in various configurations. Each combination plays with the presence or absence of the three geometric elements for a striking form that suits modern settings.

When illuminated, the blown glass shades reveal the light source, creating a soft, diffused glow that enhances the lamp's delicate aesthetic. The striking aluminium structure, available in Aluminium, Black, and White, creates a contrast of materials. The Fragile A1 Wall Light is designed to be repeated. Display in pairs to frame a bed or doorway for a sense of balance, or line hallways for an even glow and welcoming atmosphere.

The Fragile A1 Wall Light is also available in 2200K, with a recessed wall plate and a remote power supply. Please [contact us](#) for more information and pricing.

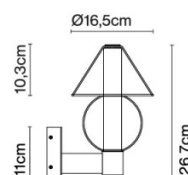

PRODUCT SPECIFICATION

Light Source: 3W, 2700K, 340 Lumens**IP Code:** 20**Dimming:** Dimmable via Triac dimming.

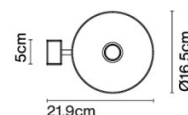

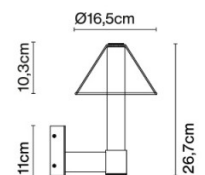

Dimensions: Height: 26.7cm
