PRODUCT DESCRIPTION

Designer: Will Earl

J. Adams & Co Luna LED Pendant

Inspired by the striking beauty of the cosmos, the J. Adams & Co Luna LED Pendant echoes the appearance of a solar eclipse through concealed light and reflected illumination. Designer Will Earl carefully positions contrasting materials to capture this celestial effect, creating a design that explores the interplay between light and shadow. The stone disc, available in Black Marble, Red Marble, and Travertine, partially conceals an LED light source, while the large hand-spun brass disc reflects the light outward into a warm halo. This soft, glare-free lighting is perfect for adding intimate lighting and a cosy atmosphere to residential and commercial interiors alike.

The Luna LED Pendant is the result of exceptional craftsmanship. Each brass dish is hand-spun using traditional techniques, then precisely moulded to achieve its subtle curve. The disc is available in three sizes: 350, 450, and 550, to suit a range of spaces. Its elegant form and ambient lighting enhance any room that calls for a decorative lighting solution. Display in a living room or dining room to create a captivating focal point that fills the space with a soft, inviting glow.

PRODUCT SPECIFICATION

Light Source: 9.5W, 2700K, 1000 Lumens

IP Code: 20
