SkLO Drape Composition 1 Pendant

The SkLO Drape Composition 1 Pendant features an asymmetric silhouette, pairing two hand-blown glass shades suspended at different heights. Both pendants hang from a single ceiling canopy on fabric-wrapped cords. The larger pendant, with an 18cm diameter, hangs straight down from the canopy, while the smaller pendant, with an 11cm diameter, is reeled through the included ceiling hook. Its sculptural composition, paired with soft, atmospheric lighting, makes the Drape Composition 1 Pendant a decorative addition to dining rooms, bedrooms, and living spaces.

Handblown in the Czech Republic, each glass shade features subtle variations in shape and colour that celebrate its handcrafted origins. Choose dipped glass, featuring SkLO's double-dipped, flame-polished opening, or textured glass with a softly frosted surface and sculpted vertical ridges. A choice of glass colours, metal finishes and cord colours allows the composition to complement a variety of interior schemes, while cord lengths can be adjusted during installation to suit the space.
