PRODUCT DESCRIPTION

Designer: SkLO

SkLO Drape Pendant

The SkLO Drape is a minimalist pendant featuring a hand-blown glass shade suspended on a fabric-wrapped electrical cord. The spherical glass shades are available in both dipped and textured glass. The dipped glass features SkLO's double-dipped, flame-polished mouth, while the textured glass features a soft, frosted finish and subtle sculpted vertical ridges. The cable, adjustable at installation, is available in four colourways to complement the glass shade. The metal elements are available in five luxurious finishes, adding to the pendant's customisability.

The Drape Pendant offers an ornamental element to interiors, even when not in use. When illuminated, the glass softens the light into an atmospheric glow. This ambient lighting is well suited to bedrooms, living areas, and dining rooms. In commercial spaces, the Drape adds a welcoming atmosphere to hospitality settings and high-end boutiques. In large spaces, create an eye-catching composition by installing clusters of pendants at varying heights and sizes.

The Drape Pendant is also available with an oval shade, with a diameter of 15cm. Please contact us for more information and pricing.
