PRODUCT DESCRIPTION

Designer: Michele De Lucchi & Gerhard Reichert

Logico 3x120º Ceiling by Artemide

Similarly to the Logico 3x120 suspension light, the ceiling version is comprised of three blown glass diffusers. The idea for the Logico range came from the designers wish to create an organised system with a charming light emission. Michelle De Lucchi and Gerhard Reichert, the designers, collaborated with Italian lighting brand, Artemide. Their design ingenuity, combined with Artemide's years of experience in light making, lead to the creation of the award winning Logico collection.

Each diffuser is made in an upside-down place mould (for structural consistence) and the three glass layers are applied; one crystal, one silk and another crystal. This unique method attributes the Logico lights with a polished silk effect, almost like fabric hanging over an invisible floral structure.

The Logico 3x120 ceiling light is available in one size and in milky white finish. The Logico family includes suspensions, wall lights and table lamps. Their modular design allows you to combine the lights in various ways, creating your own composition.
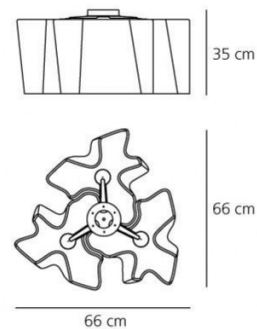

PRODUCT SPECIFICATION

Light Source: 3 x 15W E27 LED DIM (excluded)

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: 66 cm width
66 cm length
35 cm height
