## PRODUCT DESCRIPTION

**Designer:** Francisco Gomez Paz & Paolo Rizzatto

### Luceplan Hope Floor Lamp

The Hope Floor Lamp boasts a shade curated from extremely thin Fresnel lenses, which reflect the light upon each other when turned on, giving it the appearance of a large sparkling diamond. The lenses optimise reflection and distribution of light, meaning you are not sacrificing functionality for a striking design and you can recreate the effect of glass, without the limitations. Unlike traditional glass or crystal fixtures the Fresnel lenses are much lighter and much less fragile.

This design emits a decorative lighting pattern and creates a sophisticated atmosphere in your home or public space. The Hope Floor Lamp harbours the same shade as the other lights in the Hope collection, but with this design it rests atop three delicate steel legs, giving the impression that the lenses floats in mid air. Creating an elegant ambience in your space, the floor lamp works well as either general or mood lighting. An integrated dimmer allows you to have full control of the light intensity depending on your needs.

**All lights in the Hope Collection will require assembly, assembly instructions included.**

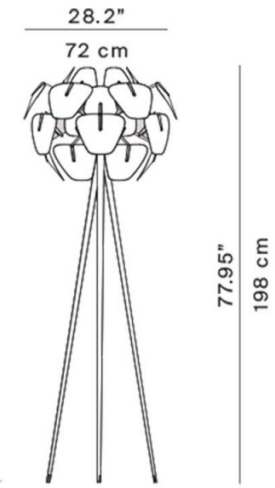

## PRODUCT SPECIFICATION

**Light Source:** 1 x Max 20W HSGSA E27 (excluded)

**IP Code:** 20

**Dimming:** In line dimmer included on cable.

**Dimensions:** Height: 198cm
Shade Height: 54cm
Shade: Ø72 cm
Cable Length: 400cm
