PRODUCT DESCRIPTION

Designer: Daniel Lopez

Marset Ledtube RSC LED Wall Light

Marset Ledtube RSC LED Wall Light is a recessed reading light by Daniel López, designed for bedrooms, headboards, and hotel interiors. The tubular light sits within the wall when closed, giving the fitting a low-profile appearance when it is not in use. It has an injected aluminium structure and a transparent polycarbonate frontal piece, with a focused beam for reading.

The tube can be moved in any direction, up to 360º, allowing the light to be aimed towards a book, bedside area, or seating position. When opened, the light switches on automatically, and when folded away, it switches off again. This makes Ledtube RSC easy to use from bed, while the honeycomb grill helps control peripheral light and reduce glare.

Ledtube RSC is hardwired and available in Aluminium, Bronze, Matt White, and Matt Black finishes. The integrated LED gives warm 2700K light, with a focused beam for reading and close task use. Most suited to bedrooms, bedside areas, headboards, hotel rooms, guest rooms, reading corners, and contract interiors where a recessed directional wall light is needed.

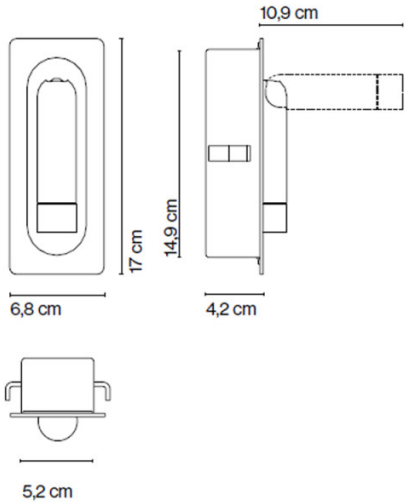

PRODUCT SPECIFICATION

Light Source: 4.25W, 2700K, 131 Lumens

IP Code: 20

Dimming: Integrated on/off switch on the product.

Dimensions: Length: 17cm
Width: 6.8cm
